

## New databases Summary

Names	Description	Access	Note
CRSP – Monthly update	The CRSP monthly update databases are updated monthly and provide most recent stock information. The CRSP stock database contains end-of-day and month-end prices on primary listings for the NYSE, NYSE MKT, NASDAQ, and Arca exchanges, along with basic market indices.	WRDS or Research Sever	Updated around 12 <sup>th</sup> business day of each month
FactSet - Supply Chain Relationships	FactSet Revere Supply Chain Relationships data is built to expose business relationship interconnections among companies globally. This feed provides access to the complex networks of companies' key customers, suppliers, competitors, and strategic partners, collected from annual filings, investor presentations, and press releases. Orbis	Orbis is Bureau van Dijk's flagship company database. It contains information on around 300 million private and public companies from more than 200 countries and territories. More than 99% are private companies. It's strengths include comparable information, extensive corporate ownership structures and a holistic view of companies.	WRDS or Research Server	The data is huge and is organized by three categories based on company size, large size (.09TB), medium size (.48TB), and small size (3.88TB).
RavenPack	RavenPack News Analytics is a comprehensive database covering firm-specific and macroeconomic news event. It provides a unique source of explanatory and predictive	WRDS	

	inputs derived from news. The product includes a data set with structured information and potential signals and creates new trading opportunities on both scheduled and unscheduled news events.		
Refinitiv – Transcripts and Briefs	Refinitiv Transcripts are verbatim representations of corporate and institutional events. These are considered True Transcripts – manually created, typing out exactly what is heard on the event. Refinitiv Briefs on the other hand, are unbiased summaries of corporate and institutional events. The databases coverage includes approximately 7,200 companies with history dating back to 2001.
